## **Youth Programs**

### **West Slope Flight Programs.**

In an attempt to get more kids through the program Lindsey has come up with a plan to use some instructors for two Pre-Flight sessions per Saturday. Currently there are 115 kids in the three west slope programs on Saturday morning. As kids move through to 2 ½ Flight the remaining 26 kids on the waiting list will be moved in as they can be accommodated.

All families have been notified via telephone and email as to the time and session their kids are in.

Lindsey's husband Andrew has set up a web site for parents and instructors. It is not "flashy" but very functional. All families are now being contacted via email.

The waiting list has been passed on to Don Wylie. He will coordinate with Lindsey and I for any kids that have been handled on Monday afternoons. There must be a definite connection between Saturday morning and any Monday afternoon instruction for kids enrolled. Parents need to know that there is good communication between Saturday morning and Monday afternoon programs.

### **2 ½ Flight.**

Joel Dykman has offered to head up this program on Saturday mornings. Pat Corcoran (new member) and Mike Houston have offered to instruct. There will be a meeting Saturday, Dec. 6<sup>th</sup> at 12:30 to discuss this program. We are still looking for two more coaches. Please spread the news.

### **3<sup>rd</sup> Flight.**

Paul Flahaven is contacting the parents of the 30 kids enrolled today (Monday, Dec. 1<sup>st</sup>) with information on the program which begins the first weekend in January.

### **Jumping**

The kids had an extremely productive fall. Will Schott recorded over 300 jumps on plastic this year. He will be very tough to beat in his age group this winter.

Competitions begin in mid-December starting with Coleraine, MN.
